Enbridge Gas HOME EFFICIENCY REBATE Program

Attic, Cathedral & Flat Roof Insulation	Minimum Insulation at time of Post Audit	Maximum Rebate ¹
Attic Insulation: Less than or equal to R-12 at time of Pre-Audit	R-50	\$1,500
Attic Insulation: R-13 to R-25 at time of Pre-Audit	R-50	\$1,200
Attic Insulation: R-26 to R-35 at time of Pre-Audit	R-50	\$900
Cathedral Ceiling / Flat Roof Insulation: Less than or equal to R-12 at time of Pre-Audit	R-20	\$780
Cathedral Ceiling / Flat Roof Insulation: Less than or equal to R-25 at time of Pre-Audit	R-28	\$780

¹Prorated based on 20% minimum roof assembly insulated. Rebate for any combination of attic, cathedral ceiling and flat roof insulation cannot exceed \$1,500.

Basement & Crawl Space Insulation	Basement Rebate ²	Crawl Space Rebate ²
Wall: R-10 to R-22 added to a minimum of 20% of walls between Pre/Post Audit	\$900	\$600
Wall: Greater than R-22 added to a minimum of 20% of walls between Pre/Post Audit	\$1,500	\$1,200
Foundation Header³: Upgrade at least 80% of your entire foundation header to increase insulation value to a minimum of R-20 between Pre/Post Audit	\$300	\$300
Basement Slab: Upgrade at least 50% of your entire basement slab by a minimum of R-3.5 between Pre/Post Audit	\$500	-
Crawl Space Ceiling: Greater than R-24 added between Pre/Post Audit	-	\$1,200

²If insulating basement and crawl space walls, maximum amount is capped at \$1,500 for both. Semi-detached and row homes receive prorated benefits.

³Foundation header can be a basement header, a crawl space header, or a combination of these two. Wall + Header = 1 measure.

Exterior Wall & Exposed Floor Insulation	Maximum Rebate
Exterior Wall³: R-7.5 to R-12 added between Pre/Post Audit	\$1,200
Exterior Wall³: Greater than R-12 to R-20 added between Pre/Post Audit	\$2,100
Exterior Wall³: Greater than R-20 added between Pre/Post Audit	\$3,600
Exposed Floor⁴: R-20 or Greater added between Pre/Post Audit (minimum of 120 sqft or 11 square meters)	\$300

³Prorated based on minimum 20% completed.

⁴Can include overhangs or floors above unheated spaces such as a garage. Exposed floor counts as a 1 measure.

Air Sealing	Rebate Amount
Achieve Base Target on the Renovation Upgrade Report	\$120
Achieve 10%+ above the Base Target on the Renovation Upgrade Report	\$180

Windows, Doors & Skylight	Rebate Amount
Each window, door or skylight replaced with an ENERGY STAR certified model ⁵	\$50 per rough opening

⁵Minimum of 3 windows, or 1 door or 1 sliding door or 1 skylight replaced with ENERGY STAR certified models required to count as (1) measure. ENERGY STAR stickers must be present on each window/door at time of final audit.

This is a guide only. For complete details, please visit the Enbridge Gas website.

EXAMPLES OF REBATE COMBINATION OPTIONS

- A** Cold Climate Heat Pump + Attic Insulation = up to \$3,500 rebate (with a 4 Ton unit) *
- B** Attic Insulation + Basement Wall / Header Insulation = up to \$3,300 *
- C** Attic Insulation + Basement Wall / Header Insulation + Air Sealing = up to \$3,480 *

*Audit reimbursement of \$600 would be in addition to the amounts listed above
