

Canada Greener Homes Grant Program

Receive up to **\$5,000** in home renovation grants,
and finance the remainder through a **\$40,000**
interest free federal loan!

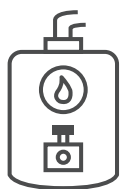

Heat Pumps (\$2500 - \$5000)

Install an approved Air Source, or Ground Source heat pump to make your heating and cooling load more efficient.

Solar Panels (\$1000 - \$5000)

Install a solar PV system to generate your own electricity and get \$1000 back for each kW of generation.

Heat Pump Water Heater (\$1000)

Replace your domestic water heater with an ENERGY STAR® certified heat pump water heater.

Windows & Doors (\$125 - \$250 / ea.)

Upgrade your windows and/or doors with an energy efficient approved model with an ER rating of 34 or greater.

Home Insulation (up to \$5000)

Upgrade the insulation in your attic, basement, walls, crawl space, headers and/or exposed floors, to help reduce your energy costs.

Energy Assessments (\$600)

Receive reimbursement of up to \$600 towards the cost of your pre and post Energy Assessment.
